

SUPPLY CHAIN MANAGEMENT COMPLIANCE AND IMPROVEMENT

Demo Report

This is a demo report prefilled with data.

Future versions will contain information as per the filer choices.

Understanding this report demo:

This report provides an overview of the assessment and improvement tool and their subsequent reports which were generated by farmers as part of their ongoing engagement with the Assistent tooling. It provides a snapshot of a group of farms within a range of farms, locations, scores and buyers; these parameters also act as filters in the event that a specific grouping is required. Additionally, the report will highlight which farms are in need of improvement or support.
